1. Neha Kumari, B.Sc. Home Sc. Hons., Sem V
2. Vijaya Laxmi, B.A. History Hons., Sem I
3. Ms. Bharti, B.Sc. Home Sc. Hons., Sem III

The Fashion Society – Fashionaire actively organised various creative, skill-based, and career-oriented activities during the academic session 2025–26. The session began with the reconstitution of the Student Executive Committee through an application and interview process. Students were selected for various executive posts including President, Vice President, Secretary, Joint Secretary, Treasurer, and Additional Executive Members.

The Society organized and conducted several activities aimed at enhancing students' creativity, confidence, leadership, and practical exposure in the field of fashion and styling. Major activities included the Inter-College Saree Draping Competition “Rhythm of Drapes,” a Fashion Modelling and Choreography Workshop conducted by Mr. Ashish Dhakad, Director, Icon India, and a Skin Care and Basic Makeup Workshop conducted by Ms. Sushma Khan.

Students of the Fashion Society Modelling team also participated in various inter-college fashion show competitions, which provided them valuable exposure in stage presentation, choreography, teamwork, and event management. The activities of the Society contributed significantly towards personality development, experiential learning, and enhancing the inter-college visibility of the institution.

Special thanks are due to the Principal, Prof. Ruby Mishra for providing financial support from the college for garments, props, and accessories for the BNC Modelling Team. The Society also extends sincere appreciation to all faculty members, student executive members, participants, and volunteers for their dedicated efforts, and cooperation in successfully organizing and participating in the activities throughout the session.

It is recommended that the Society continues organizing workshops, competitions, and industry interaction sessions regularly, while also expanding its activities and inter-college collaborations to further enhance student learning and participation.

**Dr. Rachna Mohan**
