

E-Waste Collection Drive

Duration: 16 October – 15 November 2025

Following the awareness seminar, the Eco Club Harit Nikunj organized an E-Waste Collection Drive from 16 October to 15 November 2025 to encourage safe disposal and recycling of discarded electronic items.

Special collection bins were installed near the Physics Laboratory to facilitate the collection of unused electronic devices, including mobile phones, laptops, chargers, cables, printers, electronic accessories, and other e-waste.

The drive encouraged students, faculty members, and staff to actively participate in environmentally responsible disposal practices and contributed towards minimizing hazardous waste on campus. The initiative successfully reinforced the importance of scientific e-waste management and promoted responsible environmental behaviour among the college community.
