

Educational Visit to Bharat-Tex 2024 (28th February 2024)

The Fabric and Apparel Science Discipline of the Department of Home Science organized an educational visit to Bharat-Tex 2024 at Yashobhoomi, New Delhi, on 28 February 2024 for students of B.A. Programme (Apparel Design and Construction) and B.Sc. Home Science (Hons.). Accompanied by faculty members Dr. Rachna Mohan and Ms. Divya Sharma, the students explored the global textile expo and gained firsthand exposure to the latest trends, innovative fabrics, sustainable practices, and emerging technologies in the textile and apparel industry.

The visit provided valuable practical insights into the functioning of the textile sector and its role in national and international markets. Students also attended seminars and interacted with industry professionals, enhancing their understanding of current developments and future prospects in the field. Additionally, many students independently visited Bharat-Tex at Bharat Mandapam, Pragati Maidan, where they further explored new products, technologies, and industry innovations. The visit proved to be a highly enriching learning experience, contributing significantly to the students' academic and professional development.
