

Field Visit to YOGA Clean Air Office, Noida

On 22nd September 2026, the students of the Bhagini Nivedita college (Vth Semester)GE Course – Essentials of Entrepreneurship- I, undertook an educational field visit to the YOGA Clean Air Office in Noida. The visit provided students with an opportunity to gain practical insights into the fundamentals of entrepreneurship beyond the classroom. During the interaction, the students engaged with Mr. Sachin Panwar, Founder of YOGA Clean Air, and learnt about the process of identifying an opportunity, developing an entrepreneurial idea, building a venture and creating value through innovation. The interaction helped students understand how entrepreneurial concepts are translated into real-world business practices, particularly in the emerging field of clean air and environmental solutions.

A key highlight of the visit was Mr. Panwar's sharing of his entrepreneurial journey, including the challenges encountered while establishing and growing the venture, as well as the achievements and milestones along the way. The students gained an understanding of the importance of vision, perseverance, innovation, adaptability, risk-taking and problem-solving in an entrepreneur's journey. The field visit also encouraged students to view challenges as opportunities for creating innovative solutions and social and environmental impact. Overall, the interaction was an enriching experiential learning opportunity that connected the concepts taught in the Essentials of Entrepreneurship course with a real entrepreneurial journey and inspired students to explore entrepreneurship as a pathway for innovation and meaningful impact. The field trip was arranged and coordinated by Dr. Priyanka Kulshreshtha, Department of Home Science.
