

Khadi Utsav held on 22nd October 2024

The Home Science department (Fabric and Apparel Science) organised **Khadi Utsav** on 22.10.2024, an event dedicated to celebrate Khadi fabric and showcase the creative work of our students. The event emphasized the versatility of Khadi, beyond clothing, and provided students with a platform to showcase their creativity in surface ornamentation. A major highlight of the event was the impressive display of Khadi products created by the students, which included Pooja thalis, Jewellery, Potli bags, Trays, Coasters, Table linen etc. Each of these products was beautifully decorated using surface ornamentation techniques such as hand painting, Block Printing etc, on Khadi cotton and silk fabrics. The visitors were especially impressed and captivated by the hand-painted artwork in styles such as Madhubani, Mandala, and Pichhwai, which truly showcased the creative skills of the students.

The quality of the products, including their design and finishing, was highly praised by both faculty and visitors. Many faculty members encouraged the students to take their skills forward and consider turning these efforts into professional opportunities in the future. In addition to the product display, students and faculty participated in engaging activities such as Khadi Quiz and several Khadi-themed games, which added a fun and educational element to the event. The Khadi Utsav was a great success, with enthusiastic participation from both faculty members and students, offering their support and appreciation. The event demonstrated the students' creativity, dedication, and ability to work with Khadi in innovative ways.
