

MoU for Installation of Solar Lighting System in college premises (10th August 2026)

An MoU was signed on 10 August 2026 between Bhagini Nivedita College, University of Delhi, and M/s Innovative Power Solutions for the installation and maintenance of a Centralized Hybrid Off-Grid Solar Light System with 20 street-light poles within the college premises.

The MoU has been signed for a period of 10 years and was undertaken under the initiative of Principal Prof. Ruby Mishra, prof. Mamta Singla (Staff Council Secretary), and Dr. Priyanka Malik (Eco-Club, Convenor). The initiative aims to strengthen the use of renewable energy infrastructure within the college premises and promote sustainable and environmentally responsible practices.

As per the agreement, the agency will install, commission and maintain the solar lighting system, including the 20 street-light poles, for the agreed period. The solar lighting service is to be provided free of charge to the College during the tenure of the agreement.

The initiative represents an important step towards promoting renewable energy, energy efficiency and sustainable campus development at Bhagini Nivedita College.
